

PROJECT LEADER

Are you a Project Leader who is not only customer oriented but also quality and result oriented? Are you resistant to stress and do you enjoy working in teams? Do you want to work in a highly driven and collegial working environment with plenty of room for your own initiative? Then we are looking for you!

What are you going to do?

The Project leader is responsible for successfully realizing the project, in which he provides the account manager the calculations and the budget, based on customer specific requirements (QUO phase). The Project leader is overall responsible for implementing (IMP phase) the project according to the agreed timing, cost price and the budget.

1 – Project management

- Project management contains consulting with the client and stakeholders about status/direction of the project, the composition of the team, the plan of action, the achieved progress, the judgment (on quality level) of the team members and reporting of the performance of the project to management and other stakeholders.
- The administration of the project contains the responsibility of an updated PSO in Proserve (General Info, Calculation, Budget, Materials, Planning) and a complete project documentation that enables the team to provide themselves with the right information.
- The Project leader is responsible for Project Portfolio Management of his own Portfolio, in consultation with the management and stakeholders.

2 – Customer relationship

- The Project leader is responsible for monitoring the satisfaction of his own clients by offering good services and to make sure he meets the customer specific requirements together with the project team and the account manager.

3 – Budget & Finances

- The Project leader is responsible for providing the right cost prices and budget to the account manager in the QUO Phase and after the nomination the project leader is responsible for implementing the project according to the agreed cost prices and budget in the IMP phase.
