

VC Environmental policy

In Visscher-Caravelle we are committed to do our part to help preserve the earth's finite resources and maintain the well-being of our planet for generations to come. Because of this reason the company defined a sustainable strategy based on four objectives: No waste, Zero footprint, Circular products and processes, and Sustainable innovation. This strategy will help us to minimize environmental impacts concerning our activities, products and services. Our final ambition is to have a positive impact on our natural environment.

Visscher-Caravelle commits to:

- Report yearly GHG emissions of our facilities (based on LCA data).
- Enhance energy efficiency in all business activities and increase the use of renewable sources of energy.
- Manage and monitor efficient use of water.
- Comply with legal requirements on air emissions.
- Use of responsible chemical management. (e.g. in monitoring of toxic material usage)
- Strive to increase the recyclability of our waste materials.
- Ensure the promotion of recycled materials and recyclable products wherever possible
- Protecting an animal's welfare in our sourcing of materials (e.g. in our sourcing of materials such as leather).
- Manage efficient land use and promote biodiversity.
- Promote soil quality (e.g. not sourcing natural yarn which use lot of land and soil).
- Comply with legal requirements on noise emissions.
- Comply with all environmental legal requirements and regulations.
- Collaborate with key automotive customers in alignment with sustainable policies and targets in the industry.

The company is committed to continuous improvement of environmental performance. We respect our client's requirements and directions in line with due care. As a manufacturer for the automotive industry , good quality of our products and actions remains the management's commitment and every employee's duty.

Management Visscher Caravelle Group – 2023
